For the TDI Therapy Dog Test, dogs must be:

- One year or older
- Will be tested on a buckle collar, or body harness (not no pull)
- Have a sound & stable temperament
- Show proof of current required vaccinations

(TDI also requires your veterinarian to complete a form that lists your animal's vaccination or titer & test history. In addition, your veterinarian must sign a statement indicating that the dog is of sound & stable temperament & in good health)

For more information on *Therapy Dogs International*, visit their website at: www.tdi-dog.org

*Testing date to be announced
(Additional \$10 fee for test,
paid to TDI)*

Ask an instructor if you & your dog are ready for this fulfilling challenge!
